

Remote control with screen (dual camera+dual gimbal) GO2

Caratteristiche Tecniche

- Including remote control with screen
- Dual backup communication links:
 - Equipped with all the functions of Go2 screen remote control (dual camera)

- Dual-light gimbal: high-precision three-axis stabilization
- PTZ parameters: Angle jitter $\pm 0.01^\circ$
- Controllable pitch and rotation: $-90^\circ \sim +25^\circ$
- Controllable horizontal rotation: $-270^\circ \sim +270^\circ$
- Roll, roll, rotate: $-45^\circ \sim +45^\circ$
- Thermal imaging sensor:
 - Resolution: 640x512
 - Band range: 8-14um
 - Temperature measurement range: high gain $-20 \sim +150^\circ\text{C}$, low gain $50 \sim +550^\circ\text{C}$
 - Temperature measurement accuracy: $-20 \sim +150^\circ\text{C}$ ($\pm 2^\circ\text{C}$), $50 \sim +550^\circ\text{C}$ ($\pm 5^\circ\text{C}$)
 - Control method: App (with screen remote control)
