

Go2ent-U6

Caratteristiche Tecniche

Go2 (gas detection) Excluding screen mounted remote control (dual camera), including two handed remote control. Go2 Standard Luggage Non Go2 Industry Series Special Packaging Boxes Control method: Two handed remote control and Go2 official app. The gas detection interactive interface is integrated into the official Go2 APP Temperature measurement: -40~70 °C with an accuracy of ± 1 °C (ambient temperature of 25 °C) Humidity measurement: 0-100%

3% Carbon monoxide measurement: measurement range 0~1000ppm \pm 3%
Carbon dioxide measurement: measurement range 0-20ppm \pm 3% Methane
measurement: measurement range 0~100%, accuracy \pm 3% Hydrogen sulfide
measurement: measurement range 0~100ppm \pm 3% Benzene measurement:
measurement range 0~100ppm \pm 3% Interface types: Ethernet interface and
458 interface Excluding depth cameras
